Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use MS Word to prepare exercise solution.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
 - It is submitted after due date.
 - It is not in the required format (.doc or .docx)
 - It does not open, or file is corrupt.
 - It is copied (partial or full) from any source (websites, forums, students, YouTube etc.).
 - Screenshots must be clear and readable.
 - Don't forget to add screenshots where necessary.

Learning Outcome:

After completing this exercise, you will learn:

- To install and configure the website on the hosting service or localhost.
- To configuring cPanel or localhost.
- To install WordPress.
- To install theme on WordPress.

Hands-On-Exercise Description:

In the WordPress course during this batch, we are embarking on the journey to create a fashion store project using WordPress. The website shall offer a diverse selection of men's and women's clothing. The development of website is divided into four Hands-on-Exercises. The following tasks of Hands-On-Exercise #1 will serve as the starting point for our project's setup and development.

Problem statement:

According to the above Hands-On-Exercise description you are required to complete the following tasks to start this WordPress project:

Tasks:

1. Register an account on a web hosting platform, whether it's a free or paid service, or alternatively, set up and configure XAMPP/WAMP/Flywheel for a local development environment (**Topic no.07**). Capture screenshots of your progress and include them in your solution file. (3 marks)
2. Install WordPress (**Topic no.08**) on either your web hosting account or localhost environment and provide screenshots documenting the installation process in your solution file. (3 marks)
3. Install the Astra theme (**Topic no.25**) using the theme section of WordPress and provide screenshots documenting the installation process in your solution file. (4 marks)

Requirements:

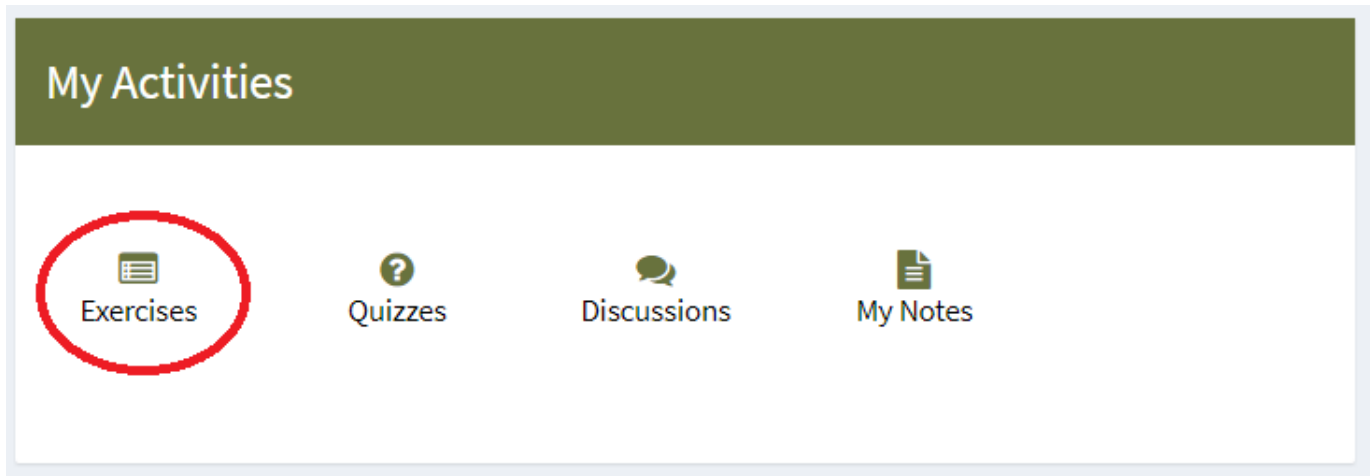

Please add screenshots of Task 1, 2 and 3 in the word document.

BEST OF LUCK ☺

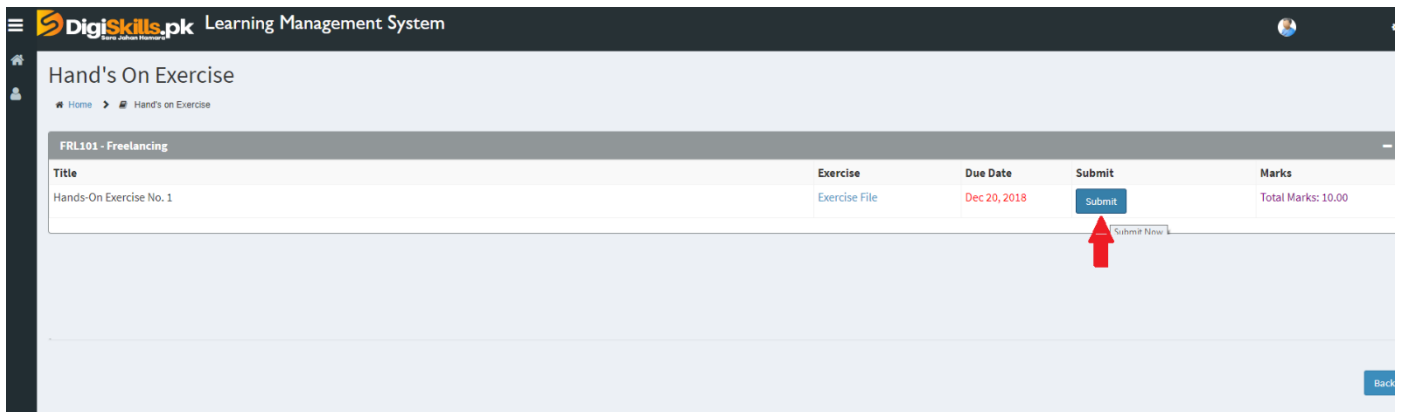

How to submit solution file on LMS?

Please perform the following steps for submitting your solution using LMS:

- 1) Login to the LMS
- 2) Click on the **Exercises** button within the **My Activities** section

- 3) Click on the submit button to upload your Solution.

- 4) Keep in mind to upload your Solution in .doc or .docx format
